

Hello, all. Thank you for taking time to review my letter and resume, as I present myself for the role of Director of Membership, to fill the one-year term spot left open. I know some people running for [election](#) might be running against others and therefore do some campaigning. To that end, I didn't want to seem as if I were taking the easy road out. I hopefully expressed my passion for connecting people, which is the reason I really enjoy my membership with Skal – Kansas City. I have been impressed with this supportive group and have been excited to introduce about thirty people to the organization (some which have ultimately been able to join). I hope to work with the clubs around USA to see what is/not working for them in the way of retaining and expanding membership, and to further the overall growth of Skal USA in the process. If you have any questions, please do not hesitate to reach out to me.

Sincerely,
Celeste
