Dear Skalleagues:

I am asking for your vote for Vice President Membership. My personal integrity, attention to detail, and experiences in growing the Arkansas club will make me successful in this position. Personally, I am eager to make a difference in this special organization. I see so much potential in the growth of membership for existing clubs and in building new clubs throughout the United States.

I have been a member of Skål International since 2003 with successive official duties in SI Arkansas. My forty years of knowledge, experience, abilities, and skills have made me a leader in the industry. In my professional career and in my personal volunteer service, I have had many years of experience in managing finances, event planning, marketing and sales, administration and operations, strategic planning, and project development. These skills were of value in developing the financial and membership stability for SI Arkansas.

The Skål International Arkansas club grew from ten members to nearly fifty. It took a lot of hard work and planning from our members to make that impact. I am proud of my contribution and leadership in growing our club.

Please take a moment to read the information on the website – the President's letter, Vitae, and professional resume tell my story. I am looking at this opportunity as one where I can make new friends, connect people, and grow the organization. Skål International has been a blessing to me and I want others to receive this blessing as well.

If I can answer any questions or be of assistance to you, please contact me. I am always eager to help! I thank you in advance for your consideration of my request.

Sincerely and Skål,

A handwritten signature in black ink that reads "Karen Trevino" in a cursive script.
